

# 2019 The 2nd International Conference on Computing and

## Big Data (ICCBD 2019)

(Workshop)

2019 International Conference on Computer, Software  
Engineering and Applications (CSEA 2019)

### Table of Contents

**Preface**.....vii  
**Conference Committees**.....viii

<b>• Chapter 1- Data Mining and Analysis</b>	
Intelligent Maintenance Diagnosis System <i>Chu-Chai Henry Chan and Gino Liu</i> .....	1
Application of Literature-Based Discovery in Nonmedical Disciplines: A Survey <i>Wendy Hui and Wai Kwong Lau</i> .....	7
Relocating Local Outliers Produced by Partitioning Methods <i>Rogelio O. Badiang Jr., Bobby D. Gerardo and Ruji P. Medina</i> .....	12
Applied Linear Algebra Methods for Data Science <i>Chien Hsu and Jin Wang</i> .....	17
Handling Imbalanced Data through Affinity Propagation and SMOTE <i>Lanie B. Laureano, Ariel M. Sison and Ruji P. Medina</i> .....	22
<b>• Chapter 2- Natural Language Processing</b>	
Filter Selection Methods for Multiclass Classification <i>Rhodessa Jurilla Cascaro, Bobby D Gerardo and Ruji P Medina</i> .....	27
Abstract Generation System for Chinese Articles and Reviews of 3C Products <i>Yi-Ting Chen and Tzone-I Wang</i> .....	32

An Application for Classifying Depression in Tweets <i>Bernice Yeow Ziwei and Hui Na Chua</i> .....	37
Multi-class Document Classification Using Improved Word Embeddings <i>Benedict A. Rabut, Arnel C. Fajardo and Ruji P. Medina</i> .....	42
Multi-Label Classification of Employee Job Performance Prediction by DISC Personality <i>Patompat Kamtar, Duangjai Jitkongchuen and Eakasit Pacharawongsakda</i> .....	47
<b>• Chapter 3- Network Information Security</b>	
GISKOP: A Modified Key Scheduling Operation of International Data Encryption Algorithm using Serpent Key Scheduling <i>Gerald T. Cayabyab, Ariel M. Sison and Alexander A. Hernandez</i> .....	53
False Alert Buster: an Adaptive Approach for NIDS False Alert Filtering <i>Yuan-Hsiang Su, Michael Cheng Yi Cho and Hsiu-Chuan Huang</i> .....	58
A Secure Key Scheduling Operation for International Data Encryption Algorithm using Serpent Key Schedule Operation <i>Gerald T. Cayabyab, Ariel M. Sison and Ruji P. Medina</i> .....	63
A Modified Least Significant Bit Randomized Embedding Method based on Image Partitioning and Columnar Transposition with Encryption <i>Fredilyn B. Calanda, Ariel M. Sison, Mark Rennel D. Molato and Ruji P. Medina</i> .....	68
A Secured RFID Lightweight Authentication Protocol based on Elliptic Curve Cryptography Using Modified PRNG Algorithm <i>Domingo V. Origines Jr., Ariel M. Sison and Ruji P. Medina</i> .....	73
<b>• Chapter 4- Computer Technology and Application</b>	
Online Updating Algorithms of Statistical Methods for Big Data <i>Yihao Li and Jin Wang</i> .....	81
Enhancing Feed-Forward Neural Network in Image Classification <i>Mark Jovic A. Daday, Arnel C. Fajardo and Ruji P. Medina</i> .....	86
Ballot Mechanism Design Based on Blockchain Methodologies <i>Meng-Hsuan Fu</i> .....	91
Research on the Attention Degree to Textile Apparel Information Based on Consumer Endowments <i>Liu Xia, Wang Guoqing, Li Jing, Xu Kang and Chen Qianwen</i> .....	94

<ul style="list-style-type: none"> <li>• <b>Chapter 5- Computer Technology and Software Engineering</b></li> </ul>	
Regression and Classification in Supervised Learning <i>Jiachong Li</i> .....	99
Utilizing Tandem Features for Text-Independent Speaker Recognition on Short Utterances <i>Arvin Kenneth Alvarez, Mary Tricia Ann Pelipas, Carl Ivan Rayos del Sol and John Paul Tomas</i> .....	105
Detection of Proper Form on Upper Limb Strength Training using Extremely Randomized Trees for Joint Positions <i>Aldrin John Torres, Clowie Silubrico, Daniel Torralba and John Paul Tomas</i> .....	111
Effect of Preservation Technology for Sustainable Cold Chain <i>Yung-Fu Huang, I-Sung Lai, Ming-Wei Weng and Lin Huang</i> .....	116
Applying ISO/IEC 29110 to ISO/IEC 62304 for Medical device software SME <i>Natsuda Kasisopha and Panita Meananeatra</i> .....	121
<ul style="list-style-type: none"> <li>• <b>Chapter 6- Computer Vision</b></li> </ul>	
Real-Time Multi-Person Smoking Event Detection <i>Waynebert Jan D. Cabanto, Aira Danielle B. Jocson, Renzel Laurence T. Lateo and Joel C. De Goma</i> .....	126
Disease Detection of Asian Rice ( <i>Oryza Sativa</i> ) in the Philippines Using Image Processing <i>Elysse Joy Angelica V. Pascual, Joe Mhar J. Plaza, Jose Lorenzo L. Tesorero and Joel C. De Goma</i> .....	131
Using Virtual Reality Technology to Enhance the Experience of Immersive Sensation Training Color Applied to the Environment by Means of EEG <i>Wei-Te Tsai and Chien-Hsu Chen</i> .....	136
Classification of Varietal Type of Philippine Rice Grains Using Image Processing through Multi-View 3d Reconstruction <i>Jan Rei S. Buenaventura, Jun T. Kobayashi, Larah Mae P. Valles, Joel C. De Goma and Ariel Kelly D. Balan</i> .....	140
Detection of Overall Fruit Maturity of Local Fruits using Convolutional Neural Networks through Image Processing <i>Mark Anthony Ayllon, Melwin James Cruz, Justin Jason Mendoza and Mary Christine Tomas</i> .....	145
<ul style="list-style-type: none"> <li>• <b>Chapter 7- Applied Mathematics and Cloud Computing</b></li> </ul>	
Investigating the Effect of the Cloud Computing on Education Internet of Things (Eiot) <i>Yu-Hsin Hung and Shen-Hong Wu</i> .....	149

NetFlowTotal: A Cloud Service Integration Platform for Malicious Traffic Analysis and Collaboration <i>Tzung-Han Jeng, Wei-Ming Chan, Wen-Yang Luo, Chuan-Chiang Huang, Chien-chih Chen and Yi-Ming Chen</i> .....	154
Wavelet Analysis on the Relevance of Stock Market and Exchange Rate between China and India <i>Hsin-pei Hsueh and Fangjhy Li</i> .....	161
